DIAMOND BLUE

PREMIUM QUALITY CAR POLISH

DIAMOND BLUE is used to bring a deep brilliant shine to new and used vehicles for the least amount of effort.

DIAMOND BLUE's unique formulation allows a professional detailer to hand polish light or dark coloured vehicles to a silky smooth finish in less time than any other product on the market.

DIAMOND BLUE will amaze at its ease of use and depth of shine.

FEATURES:

- Complex blend of the finest quality polymers, solvents and silicone.
- Specifically formulated to meet the demands of the professional detailer.

BENEFITS:

- Produces a deep long lasting shine for a visibly improved finish.
- Does not powder or mark a vehicle's rubbers, saving time in use.
- Improves results and reduces processing time.

PRODUCT CHARACTERISTICS:

Appearance: Blue coloured creamy liquid with a distinct solvent fragrance.
Specific Gravity: 0.98 typically.
pH: (neat product) = 8.4 typically.
Contains: Premium grade polymers.
Abrasion: Light.

DIRECTIONS FOR USE:

Wash and dry the vehicle thoroughly using an Applied Vehicle Wash such as Softwash or Wash n Wax. Shake the container well before applying the polish evenly to the surface, using a soft cloth. Buff to a deep shine.

HANDLING PRECAUTIONS:

Avoid eye contact. Flush immediately with copious quantities of water, until irritation subsides. Avoid prolonged or continuous skin contact.

For further information, please refer to the appropriate Material Safety Data Sheet.
