SOFTWASH

NEUTRAL HAND CAR WASH

SOFTWASH is a concentrated blend of complex cleaning agents to provide a mild hand vehicle wash that has real cleaning power. Designed specifically to remove dirt, soils, and general, grime from cars, boats, motorbikes, caravans and 4X4's. It is a fabulous automatic and DIY car wash product also.

SOFTWASH's mild formulation means that even if you're washing cars all day your hands will not dry or crack. It is ideal for Hand Car Wash businesses, auto dealerships and panel shops where vehicles are regularly washed. It does not contain silicone.

SOFTWASH is a high foaming product that can be sponged, broomed or sprayed onto bodywork, glass, and aluminium. It's neutral formulation ensures that no surface will be damaged and previously detailed cars will not lose their shine. It has remarkable rinsing capabilities and will not streak if hosed effectively.

SOFTWASH has a unique **colour enhancer** that brightens the duco of dull paintwork. Its soft foam and great fragrance really make this product delight to use.

Use **SOFTWASH** as a general-purpose wash for all sorts of cleaning jobs, it is safe for all surfaces.

BENEFITS:

- Effective cleaning agents - Quickly removes all dirt and road grime.
- Mild formulation prevents dermatitis for users.
- Colour enhancers leave a bright finish to all paintwork. No silicones.
- Free rinsing - No streaks
- High foaming - longer contact time
- Neutral formulation - safe on all surfaces. Including fabrics, acrylic and water based paints.
- Will not remove previously applied polish. Built in corrosion inhibitors
- Very economical to use.
- Available in 1lt, 5lt, 20lt and 200lt drums. Bulk deliveries can be arranged.

PRODUCT CHARACTERISTICS:

Bright Blue heavy bodied liquid with a mild, citrus odour.

SOFTWASH is water soluble at use solutions. pH of 1% solution typically: 7.5

DIRECTIONS FOR USE:

- Generally used at a concentration of 5-10%
- When using a high pressure cleaner, the dose rate is 10-20 gms/litre of water.
- If time permits sponge or brush surface. If not allow to penetrate for as long as possible.
- Hose or pressure rinse off all residual suds. It is most effective to rinse from the bottom up to the top and back down to the bottom again. This rinses soils from crevices.
- If time permits, chamois the vehicle for a great result.

HANDLING PRECAUTIONS:

Non-hazardous.

Please consult Material Safety Data Sheet.
