## CONCENTRATED SPRAY WAX FOR CAR WASHES

**Spray Wax** is a specially formulated Liquid Wax that is suitable for use through low-pressure spray application for automatic and self serve car washers.

**Spray Wax** is ideal for new and used vehicles in providing a wax film which enhances paint work and provides protection from harmful contaminants such as Industrial fallout, acid rain, road grime, bird and insect droppings and UV rays.

**Spray Wax** is also used for the preparation of vehicles where polishing is not the preferred option to enhance paintwork. A spray application after washing produces a quality finish to duco.

**Spray Wax** shines and protects in one easy application. It is proven to generate more income for car wash operators due to its exceptional performance.

FEATURES	BENEFITS
Concentrated Product	Excellent Economy in Use Low concentration provides environmental protection.
Low ph	Does Not Remove Previously Applied Polish or Paint Protective Coatings. Safe to use
Contains A Blend of Fine Waxes	Enhances the Finish on any Paintwork Whilst Imparting a Protective Paint layer
Distinctive Cherry Almond Fragrance	Customer satisfaction and acknowledgment that the product is present.
High Water Beading Characteristics	Customer satisfaction and acknowledgement of product performance, easier to dry off or chamois.

### PRODUCT CHARACTERISTICS:

Appearance:	Clear Viscous Red liquid.
Odour:	Prominent Almond Cherry Fragrance.
Specific Gravity:	0.944 @ 20 Degrees C
Solubility:	Water soluble in all proportions.
Detergent Type:	Biodegradable blend.
Flammability:	Non-flammable.
Use Temperature:	Effective with either cold or hot water.
Corrosive Action:	Non-corrosive.

### DIRECTIONS FOR USE:

**Spray wax** is suitable for use through low-pressure application in automatic and semi automatic car washers.

Spray wax can be applied directly by pressure washer at low pressure.

Dilute up to 200 parts water for Wax application through an automatic car wash.

Dilute up to 50:1 for duco enhancement prior to vehicle sale.

Dilute up to 10 parts water for paint protection during storage outside. The product can be used at higher concentrations for longer-term paint protection, or for areas with high levels of Industrial fallout.

**Spray Wax** is removed by a suitable commercial grade car wash such as Applied Bulldog Gold

### HANDLING PRECAUTIONS:

Safety Advice: Not classified as dangerous

Simply wash splashes from skin with water. For splashes to eyes flush thoroughly with water.

If swallowed, **DO NOT INDUCE VOMITING**, give water to drink. Medical attention is recommended following splashes to eyes, or if product is swallowed.
